Seminar Speakers

Guest speakers will provide information based on their industry experience.

Alan Chandler, CWS, CSRS -

Alan's first experience in basement waterproofing was when he had a summer job in 1969 waterproofing basement walls. Alan founded All Dry Basement in 1985. He is a Certified Waterproofing Specialist and is a Past President of the NAWSRC and is currently serving on the Basement Health Association's Board of Directors.

Todd Jackson, CWS

Todd has been part of the foundation repair industry since 1985. He is a long-standing member of the American Concrete Institute, International Concrete Repair Institute and the National Association of Waterproofing and Structural Repair Contractors. He is also on the A.C.I. committee 440 for Fiber Reinforced Polymer Reinforcement.

Tom Saucier founded Crawlspace Doctor in Southern Indiana in 2002. Crawlspace Doctor has sixteen franchises operating in seven states. Specializing in conditioned crawlspaces and all work related "For Total Crawlspace Good Health."

Steve Andras, CWS, CSRS has been helping people utilize their basements for nearly 30 years. He is the Founder and President of Pioneer Basement of Westport, MA. Steve has published many articles related to wet basements and how they affect the health of people living above them. Steve is currently serving as President of the Basement Health Association.

Hugo D'Esposito, CWS -

Hugo is President of A M Shield Waterproofing, Corp which provides waterproofing and foundation repair services on Long Island, NY. Hugo is a Certified Waterproofing Specialist and the current Chairman of the Basement Health Association's Basement Drainage sub committee.

David Hill, is VP of Sales and Marketing at Spruce Technologies of Ward Hill, Massachusetts. Dave, served as President of The (AARST) American Society of Radon Scientists and Technologists for two terms. The achievements during his terms as President are astounding. AARST has initiated the National Radon Standards Consortium, reinvigorated the annual International Radon Symposiums, formed relationships with the national home inspection organizations, reestablished working relationships with EPA and CRCPD, helped create American Radon Policy Coalition, met with HUD (resulting in mandatory radon notification forms).

Sponsors

Earth Contact Products (ECP) is a manufacturer of steel foundation repair, waterproofing and anchoring products in the industry. We provide engineers and our national network of foundation repair contractors with a superior lineup of piers, piles and anchors used for new construction, waterproofing, foundation repair and utility applications. Grate Products, LLC is a manufacturing and distribution company. Grate Products, LLC purpose is to protect people from the dangerous conditions that can exist in their basement, by providing our quality basement products and processes. Our goal is to make every home in the world healthier by helping our Authorized Contractors provide their clients with products and services that promote a healthy basement environment. www.grateproducts.com

Stabil-loc is a manufacturer and distributor of quality steel piers. They provide product and support to their contractors. No Franchise to buy. Their piers are very competitively priced. Stabil-loc distribution philosophy is limited and selective. Limited Authorized Contractors in each market. www.stabil-loc.com

Our patented Rhino® Carbon Fiber Wall Supports link the foundation base with the house framing making it the strongest system on the market! The carbon fiber is fastened to the sill plate with a galvanized bracket and secured to the foundation floor with a carbon fiber pin. Deterioration does not occur because our patented carbon fiber system is secured to the foundation wall allowing for an even distribution of outside pressure. www.rhinocarbonfiber.com

Our staff combines for over fifty years of pump experience. We offer pumps from a 1/6HP utility pump, up to a 25HP 4" non-clog sewage ejector. We also offer 2HP - 7.5Hp grinders with shut off heads up to 210' TDH. Our complete line of accessories, which include structural foam and fiberglass basins, rail systems, check valves, floats, alarms, & control panels allow us to provide for your complete pumping needs. www.championpump.com

Emecole has been the trusted manufacturer of concrete crack repair products for more than 20 years. Since then, Emecole has evolved into a full provider of products and solutions for basement waterproofing contractors, and crawl space sealing and insulation installers. www.emecole.com
